# What the President has to Say About

His Re-election.
New York, November 8.—A Wash ington special reports the following as President Grant's views on his re-elec-tion. His first election he considers as an honor paid him for his military services. His second, the nation's approval of his political administration, and popular vindication of his personal character. Long before the Philadelphia Convention he foresaw his success. The nomination by the coalitionists gratified him, inasmuch as it narrowed the contest to two candidates, besides the character of the opposition gave complete assurance of the result. He was surprised at the afright received by some of the Republicans at the Baltimore nomination, and he was thereafter urged by political giants to make various changes in his Cabinet. Many of his friends had wondered at his indifference, but one helping cause of that indifference which was known to but few, was his knowledge of the fact that during the campaign the Rehe foresaw his success. The nomination the fact that during the campaign the Re publican National Committee had picket in every Greeley camp of any con-sequence from one end of the country to the other, and knew day by day every plassed the coulting situation. phase of the coalition situation as well as the coalition managers themselves.

Careful surveys have shown that while Lake Michigan has an average depth of 1800 feet, Lake Superior of 900 feet, and Lake Ontario of 500 feet, Lake Erie has an average depth of 120 feet, which is said to be constantly decreasing. The bottom of the lake is quite level and composed of soft clay. This clay is constantly accumulating from sediment carried down by tributary streams. The south shore is composed of easily distinct of the second stream of the constant of t and gray sandstene.

Becond District by about 2,000 majority.

Gunter, Democrat, is elected in the filled reg group which quickly yields to the action of the waves. Consequently both shores constantly are contributing to fill up the bead of the lake.

The work is not rapid, but it is said to be as certain as fate.

Second District by about 2,000 majority.

Third District by about 2,000 majority.

CHILD BURNED TO DEATH.—A sad calamity happened in the family of Mr. John T. Husson, who lives near Alum Creek voting place, in Washington Township, the day of election, October 24. It appears that Mrs. Hutson was at home with her two little children the youngest only that Mrs. Hutson was at home with her two little children, the youngest, only seven months old, she left in the cradle, as she thought, in safety, while she went to the stable-yard to feed some stock.
